

Year 4 Homework Week Beginning 08.01.19

Name:

Maths Time Tables

Reading

Focus on the 11 times table for a test first week back.

This week we are practising the eleven times table. We need to recall these facts quickly in lots of different ways. Don't just learn to chant: 11, 22, 33, 44, 55, 66, 77, 88, 99, 110, 121, 132.

Instead, practise things like...

There are 9 elevens in ____.

110 divided by 11 is...

3 multiplied by 11 is ____.

Please make sure you are reading for 20 minutes at least three times a week. Discuss what you are reading with an adult or older sibling at home.

What are you enjoying about the book? Are there any tricky words? Do you have any questions about the story?

Discovery

Grammar

This half term we will be learning about the topic: **Inventions that changed the World!**

Over the next half term, how creative can you be? Your task is to design your own Invention!

Using junk modelling, think about the world's greatest inventions and how they have had an impact on today's society.

What will you invent? A new way to communicate? Something to rival the invention of the wheel? A new spaceship maybe? Remember to bring them in for our final week so we can show them off to our year.

Tick the box to show which sentence has correct use of the possessive apostrophe.

The girls' played well.

The boys' team won the cup.

It's going to be a great day.

That can't be true.

Spellings to practice for a test the first week back

Look	Cover	Write	Say	Check
inventions				
technology				
increase				
January				
limitations
